+ Efficiency and patient comfort

For decades, the CBC Classic has been indispensable for reliable venipuncture in everyday medical practice. Its flexible strap offers comfortable wear, while intuitive one-handed operation enables quick and safe use.

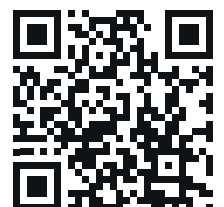

+ The original since 1992

For over 30 years, the CBC Classic has stood for quality "Made in Germany." Developed and patented by Kimetec, it was presumably copied worldwide after the patent expired. But in terms of function, comfort, and durability, the original remains unmatched.

+ Advantages

- + Skin-friendly, flexible, and soft band
- + Sturdy safety snap lock
- + Easy one-handed operation
- + Safe release
- + MRI- and CT-compatible
- + Made in Germany – Class I medical device
